The war cabinet held another long meeting Tuesday.

The address of the chancellor to the reichstag is criticized sharply by a majority of the newspapers. Extracts from the speech circuiated by the Wolff bureau, semi-official news agency, are to some extent garbled, while other passages bear so little resemblance to what Prince Maximilian said that they appear to have been invented.

The Socialist newspapers, the Zurie dispatch continues, are particularly outspoken. The Fraenkische Tages-post of Nuremberg, Bavaria, says the emperor must not think the German

The correspondent reports that the chanceller and the pan-Germans are working actively toward the formation of a national defense government. He says a proclamation to the people externing them to carry on war to the utmost has been drafted with the help of Gen Ludendorff, and that he understands it will be published as soon as President Wilson's reply has been received.

It is expected in Berlin, the correspondent adds, that the president will not allow himself to be flouted and ridiculed by the existing German government.

Teutons Break Canal Banks and Open Sluice Gates About Valenciennes.

WITH THE ALLIED ARMIES IN FRANCE AND BELGIUM, Oct 24 (By the Associated Press.)—British troops have reached virtually the whole canal bank northeast of Valenciennes. The Germans have broken down the banks and opened the sluice gates northeast and southwest of the city and have flooded vast stretches in an effort to delay the British advance.

The inarshy lowlands on the east side of the canal opposite the Raisnes forest resemble a great lake. It is not probable that the city can be approached from the southwest because of similar flooded conditions.

The British, however, have fought their way into the city from the west and there have been sharp encounters in the streets between patrols. Fire from the German artillery has been generally weak, it being strong only on villages and towns in this vicinity. Many civilians are still in these places. Heavy shells dropped with regularity for several hours yesterday into Denain, which is full of civilians. Without doubt, may were killed and wounded, and the same condition is probably true in other towns.

and the same condition is probably true in other towns.
Valenciennes still contains many eivillans. An officer of a Canadian detachment fighting in the city said:
"I entered the town with a platoon and saw an old woman sauntering up a street carrying a bucket. At about the same time a machine gun opened on us from a second story window. I was wounded and several of my men were also hit. We retired for a moment, but the last we saw of the old French woman she was going right along as if nothing was happening."
